

DESIGNER SENSOR SOAP DISPENSER

SPEAKMAN®

DESIGNER SENSOR SOAP DISPENSER

Speakman helps maximize hygiene at the sink with new Touchless Soap Dispensers. Available in two different designs for both classic and modern bathrooms alike. The dispensers constructed of durable brass that will provide years of hygienic and trouble-free service. Designed to coordinate with all SENSORFLO® faucets, you get reliable operation and easy installation. The sensor incorporates advanced laser technology, emitting a non-visible beam of light for instant on and off operation. Speakman Sensor Soap Dispensers are ideal high-traffic restrooms and environments where durability and performance matter most.

SFS-8000

SFS-9000
