

Why Chronomite Laboratories Is a Perfect Match for Modular Buildings

Chronomite point-of-use water heaters are ideal for prefabrication projects. Speed up construction, while cutting out material and labor costs

- **Compact Size:** Smaller than a laptop and fits well under a sink
- **Simple Installation:** 10–15 minutes to install a point-of-use heater
- **Flexibility:** Choice of install—plug-in or hard-wired
- **Maintenance:** Self-cleaning waterway
- **Efficient:** Fast hot water delivery
