

General Purpose 9/16" Worm Gear

IDEAL® 63 Series

High-nickel grade stainless steel clamp for plumbing, industrial, hardware and other applications requiring greater resistance to corrosion. IAPMO listed. Note: This product may contain type 201 stainless steel according to latest IAPMO listing and UPC code changes showing comparable performance and corrosion resistance in the various tests. This is not a marine grade clamp product. See 63-4 Series for a marine grade all 300 stainless steel option.

Material Specifications

Screw: 5/16" hex head. Corrosion resistant high-nickel grade stainless steel.
Band: 9/16" band width. High-nickel grade stainless steel.
Housing: High-nickel grade stainless steel.
