APPROX. NAILS PER LB	7.0

Product Description

Ideal for aluminum, galvanized & vinyl gutters. The extra-thick STORMGUARD® zinc-coating will not react with aluminum. Strong, steel-core spikes drive better than aluminum spikes. For best results, spikes should be driven into rafters or trusses, not only into fascia. Minimum 1 spike every 24". Checkered heads enhance paint adhesion. Add \$31.64 per 50-lbs. for painting. *These items available from stock in WHITE.
